Arizona Manufacturing Extension Partnership (Arizona MEP) was created through a partnership between the Arizona Commerce Authority (ACA) and the National Institute of Standards and Technology (NIST) whose goal is to become the central resource for technical assistance and all things manufacturing for Arizona’s existing community of small and medium-sized manufacturers.

Arizona MEP offers products and services that match the needs of manufacturing companies in Arizona and provides focused, concrete advice, training and hands-on assistance in growing businesses and improving profitability.

The MEP National Network™ is a unique public-private partnership that delivers comprehensive, proven solutions to U.S. manufacturers, fueling growth and advancing U.S. manufacturing.

ECONOMIC IMPACT

 MEP Center impacts are based on clients surveyed in FY2018

- $26.1 Million Total Increased/Retained Sales
- 469 Total Increased/Retained Jobs
- $29.2 Million New Client Investments
- $4.4 Million Cost Savings

About Wamore, Inc. Headquartered in Phoenix, Arizona, Wamore, Inc. is an aerospace and defense engineering company that builds precision air-drop equipment for the U.S. Department of Defense. The company also operates in the commercial sector — including providing products and services for humanitarian airdrop operations.

The Challenge. Approximately four years ago, Wamore hired a Director of Business Development, who was tasked with the job of taking Wamore’s products global. At that point, Wamore was highly dependent on U.S. military sales and did not have a strategic plan for export sales.

MEP Center’s Role. Wamore enrolled in the Arizona Commerce Authority’s State Trade Expansion Program (AZSTEP) for small businesses looking to grow its export footprint. Along with its participation in AZSTEP, Wamore enrolled in the RevAZ ExporTech program.

Through ExporTech, Wamore developed a strategic and intentional export plan, identified target export markets, set out go-to-market initiatives to undertake, and defined export revenue goals. Three months after graduating from ExporTech, Wamore implemented their “go-to-market implementation plan.”

"When we enrolled in ExporTech, we had no idea how little we knew about global export. The expertise and level of instruction received during ExporTech was on par with any executive level course we have experienced. After graduating from ExporTech and working with RevAZ to implement our go-to-market plan, our future has never looked brighter.

We credit much of our success to the Arizona Commerce Authority, including the RevAZ ExporTech program. This program gave us the playbook and confidence to achieve our global goals. Anyone considering doing business outside the US will greatly benefit from this high-energy program.”

-Vince Hearn, Director of Business Development
